PREPARATION OF THIS REPORT

During the past several years the Fisheries Department of FAO, as part of its work on the development of the Aquatic Sciences and Fisheries Information System (ASFIS), has collected bibliographic details of serial publications (journals, report series, etc.) which regularly include papers on the science and technology of marine and freshwater environments. A list of the titles identified at that time was first published in 1963, and since then the demand for a revised version giving more bibliographic detail has steadily increased.

A preliminary edition, published in 1975, listed bibliographic information on over 1200 titles which are routinely monitored for Aquatic Sciences and Fisheries Abstracts (ASFA). A supplement published in October 1976 listed an additional 600 titles, a second supplement published in July 1977 listed an additional 573 titles, and a third supplement (July 1978) 646 titles. This publication lists information on a further 429 titles.

The list as published herein was prepared by Mrs. Gillian Dore-Medichini, with the collaboration of ASFA input-centres at the Tokyo University of Fisheries, All-Union Institute for Oceanographic and Marine Fisheries Research (VNIRO) Moscow, Bundesforschungsanstalt für Fischerei (BF) Hamburg, Centre National pour l'Exploitation des Océans (CNEXO) Brest, Institut National de la Recherche Agronomique (INRA) Biarritz, Information Retrieval Limited (IRL) London, Marine Biological Association of the United Kingdom (MBA) Plymouth, Instituto Nacional de Investigação das Pescas (INIP) Lisbon, Department of Fisheries and Oceans (DFO) Ottawa, National Oceanic and Atmospheric Administration (NOAA) Washington, DC, the UN Department of Economic and Social Affairs (UN) New York, and the Universidad Nacional Autónoma de México (UNAM) Mexico.

INTRODUCTION

This fourth supplement to the Preliminary Edition (August 1975) of the "World List of Aquatic Sciences and Fisheries Serial Titles" gives bibliographic details on an additional 429 serials. It also includes a separate section containing amendments needed to update the information published in the Preliminary Edition and Supplements 1, 2 and 3. The appearance of relatively large numbers of journals dealing with the geophysical environment and marine technology as cited in this Supplement is a reflection of the recently broadened scope of ASFIS to ensure better coverage in those areas.

The amendments to the Title Index of the Preliminary Edition and Supplements 1, 2 and 3 can be found on pages 1-19. The amendments to the Corporate Name Index of the Preliminary Edition and Supplements 1, 2 and 3 are on pages 21-29. Pages 31-33 list titles in the Preliminary Edition and Supplements 1, 2 and 3 which have ceased publication. Page 35 lists ISSN's which have been identified since publication of the Preliminary Edition and the first three supplements.

Supplementary Title Index (pages 37-94)

Serials are arranged alphabetically under their published titles. If the title is generic, e.g., Bulletin, Research Report, it has been expanded to include the name of the corporate body by which, or under the authority of which, it is issued.

Serials that have ceased publication have been excluded, while superseded titles, title changes, and changes of corporate names included in nondistinctive serial titles, have been entered as cross references in order to assist the user in identifying the current title.

In the case of multilingual serials all the titles used have been entered in the title entry, beginning with the first title given on the publication. Cross references have been made from all alternative titles.

The following elements have been included in each serial title entry (when available):

Serial title/translated title
Abbreviated title according to "International List of Periodical Title Word Abbreviations prepared for the UNISIST/ICSU-AB Working Group on Bibliographic Descriptions"
Name of issuing body/sponsoring organization
Name of publisher
Place of publication
Year first published or year of earliest known issue
Frequency
Former title(s)/subtitle
Series statement, noting subseries, supplement, or numbering information
Language(s) of text and of summaries
Abstracting or indexing service(s) in which the serial title is listed
Country code and International Standard Serial Number

Supplementary Corporate Name Index (pages 95-120)

The Supplementary Corporate Name Index lists issuing and sponsoring bodies as main headings, with the titles for which they are responsible as they appear in the Supplementary Title Index.

As a general rule the names of corporate bodies have been entered according to the Anglo-American Cataloguing Rules, under their vernacular form, with cross references from alternative forms. Where it has not been possible to determine the vernacular form of the name, the corporate body has been entered in the form used on the publication of which it is author, publisher, or sponsor.

Corporate bodies through which the legislative, judicial and executive functions of a government are exercised, have been entered as a subheading under the government jurisdiction of which they are a part.

In the case of such corporate bodies as commercial, cultural or scientific organizations, institutions, trusts, corporations, or other specific enterprises, which are created and controlled by a government, entries have been made directly under their own names.

Abbreviations used for Frequency of Publication

A	Annual	Bi-m.	Bi-monthly
D	Daily	Bi-w.	Bi-weekly
F	Fortnightly	Quinqu-a.	Quinquennial
M	Monthly	Semi-a.	Semi-annual
Q	Quarterly	Semi-m.	Semi-monthly
W	Weekly	Tri-a.	Triennial
Irr.	Irregular	6/a. etc.	6 times a year etc.
Bi-a.	Biennial	2-3/a. etc.	2 or 3 times a year etc.

Language Codes

Italian	It		

Notes on Alphabetization

Added places of publication are ignored for filing purposes.

An oblique slash (as in Memoires/Verhandelingen) is treated as a space.

Gt. is filed as Great.

Acronyms are filed as if a word, regardless of whether or not they have periods between the letters.

U.S.A. is filed as if a word USA.

Hyphenated words are treated as if they are one word, provided both words are meaningful. i.e., Inter-American before Intergovernmental.

Diacritical signs are ignored.
